Professional Summary

Technology Support professional with 3+ years of experience in first-line troubleshooting, Service Desk triage, and enterprise user support across Windows, macOS, and cloud productivity platforms. Skilled in diagnosing access, connectivity, and account issues; walking non-technical users through resolutions with patience and clarity; and documenting fixes into reusable knowledge base articles. Strong DNS, DHCP, TCP/IP, SMTP, and Group Policy fundamentals, with a track record of meeting SLAs and following security and governance processes.

Skills Summary

- **IT Support**: Service Desk Ticketing, Incident Triage, SLA Management, Escalation, Root-Cause Analysis, Knowledge Base Authoring
- **Identity & Cloud**: Microsoft 365, Entra ID / Azure AD, Exchange Online, User & License Provisioning, Group Policy, MFA, SSO, Google Workspace
- **Networking**: TCP/IP, DNS, DHCP, SMTP, VPN, LAN/WAN, Firewalls, Print Management, Wi-Fi Troubleshooting
- **Platforms**: Windows 10/11, macOS, Linux, iOS, Android, Remote Desktop Tools
- **Tools & Scripting**: Zendesk, Jira, Confluence, Active Directory, PowerShell, Bash, SQL, Postman, Sentry, Grafana
- **Soft Skills**: Customer Service, Written Communication, Documentation, Collaboration, Tenacious Problem-Solving

Experience

Backend Engineer *Oct 2024 - Present*
Taja *Lagos, NG*

- **End-User & Partner Support**: Supported enterprise partners and internal users, diagnosing account access, connectivity, and webhook delivery issues and driving them to first-contact resolution.
- **Triage & Escalation**: Owned the escalation path from first report to fix, prioritizing by severity and business impact and keeping users informed within agreed SLAs.
- **Monitoring & Incident Response**: Maintained monitoring, alerting, and incident triage workflows (Sentry, Grafana, PagerDuty), reducing mean time to detect and resolve user-facing incidents.
- **Knowledge Base & Documentation**: Authored troubleshooting runbooks and internal documentation that cut repeat tickets and improved resolution speed.

Software Engineer (Contract) *Oct 2025 - May 2026*
Kite *Lagos, NG*

- **User-Facing Troubleshooting**: Debugged cross-platform application issues reported by users, investigating access, synchronization, and account configuration problems against backend services.
- **Technical Documentation**: Developed end-user troubleshooting guides and developer documentation that helped client and operations teams self-serve common requests.
- **Support Collaboration**: Partnered with support and operations teams to reproduce, diagnose, and ship fixes for production and client-reported issues, maintaining 99.9% uptime.
- **Process Improvement**: Introduced automated regression checks across critical workflows, reducing repeat incidents by over 50% in the first quarter.

Technical Support / Software Engineer *May 2023 - Nov 2024*
LocalRamp *Lagos, NG*

- **Service Desk & First-Line Investigation**: Provided frontline support for 300+ enterprise accounts, investigating reported computing, account access, and integration issues and resolving or escalating as appropriate.
- **Account & Access Administration**: Created and managed user accounts, credential resets, and access requests across internal systems, ensuring adherence to security and governance processes.
- **Customer Service & SLAs**: Responded to a broad range of service requests promptly and professionally, building strong relationships with internal and external customers while meeting SLAs.
- **Issue Triage & Escalation**: Established a structured triage workflow prioritizing issues by severity, cutting average resolution time from 48 hours to under 12 hours.
- **Knowledge Base Contribution**: Authored self-service guides and troubleshooting articles that reduced client onboarding time by 40% and recurring ticket volume by 25%.

Education

Alex Ekwueme Federal University, Ebonyi State, Abakaliki Ebonyi, Nigeria
Bachelor of Science - Computer Science; GPA: 3.5

- **Courses**: Operating Systems, Data Structures, Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

Certifications

- **HackerRank**: Software Engineer • Oct 2026 • Credential ID: AE666AC16F1C • verify
